Tax Law Changes Affecting Nebraska

- Nebraska Individual Income Taxes
 - Increase in the Federal Earned Income Tax Credit (EITC) for 2009 and 2010
 - Nebraska's EITC will follow any increase in the federal EITC.
 - Example: A \$440 federal EITC would produce a state EITC as follows: $\$440 \times 10\% = \44
 - Increased deduction for sales tax paid on new vehicles (used vehicle purchases do not qualify) purchased between February 17, 2009 and December 31, 2009
 - provided for state and local sales tax paid on the purchase of new cars, light trucks, RVs, and motorcycles not weighing more than 8,500 pounds up to \$49,500 of the purchase price
 - deduction is reduced for married, filing jointly taxpayers with modified AGI between \$250,000 and \$260,000; other taxpayers with modified AGI between \$125,000 and \$135,000
 - taxpayers that itemize deductions will see a reduction in Nebraska income taxes; taxpayers that use the Nebraska standard deduction will not see a reduction in Nebraska income taxes
 - Exemption from tax of the first \$2,400 of unemployment benefits received in 2009
 - first \$2,400 of unemployment benefits received during 2009 exempt from federal income tax
 - Nebraska taxpayers AGI for state income tax purposes will be reduced in tax year 2009

Tax Law Changes Affecting Nebraska

- Nebraska Individual Income Taxes
 - Alternative Minimum Tax (AMT) patch for tax year 2009
 - will continue to allow many middle-income taxpayers to avoid paying the federal AMT by extending certain credits and increasing the AMT exemption.
 - Nebraska law will follow the increased AMT exemption
 - Expanded carryback period for net operating losses of certain small businesses
 - Allows certain businesses to elect extension of the current maximum two-year carryback period to either three, four, or five years
 - Irrevocable election only applies to small businesses with average three-year gross receipts of \$15 million or less
 - Nebraska law will follow this expanded carryback election for business owned by individual taxpayers
 - Nebraska law disallows carrybacks for corporate net operating losses

Tax Law Changes Affecting Nebraska

- Nebraska Business Income Taxes

- Extension of 50% bonus depreciation for 2009

- allows businesses to depreciate the cost of assets faster than under the regular depreciation schedule
 - reduces a business's federal taxable income; Nebraska law also follows this provision.

- Extension of enhanced small business expensing (IRC Sec. 179)

- increases the federal Sec. 179 deduction for tax year 2009 from \$125,000 to \$250,000
 - allows small business taxpayers to write off less expensive, acquired assets in the year of purchase rather than over several years through depreciation
 - reduces a business's federal taxable income; Nebraska law also follows this provision.

- Delayed recognition of cancellation of debt income

- When a business repurchases or restructures its existing debt for a lesser amount than originally contracted, it owes income tax on the cancelled debt amount.
 - allows businesses to defer reporting any such income for tax years 2009 and 2010, and instead, pay the tax over a ten-year period
 - affected taxpayers will see a decrease in taxable income and a corresponding reduction in Nebraska tax in 2009 and 2010; instead, the tax will be paid over a ten-year period. Nebraska law also follows this provision

Accountability and Transparency

- President Barack Obama
 - States are up to the task
 - Go above and beyond
- Vice-President Joe Biden
 - This is a big deal...all that is legal is not necessarily acceptable
 - ARRA of 2009 monies are different
- Office of Management and Budget (OMB)
 - quick, wise use of the funds with unprecedented accountability
- Recovery and Accountability Transparency Board (RATB)
 - coordinate and conduct oversight
 - prevent fraud, waste, and abuse
 - Websites: recovery.gov and recovery.nebraska.gov
- Government Accountability Office (GAO)
 - bi-monthly review of selected states and localities
 - recipient reports on all 50 states

Accountability and Transparency

- Provides state and local officials with additional resources and consequently additional responsibilities
- Many of those responsibilities, often referred to as transparency, accountability, certifications or assurances, are spelled out in the Recovery Act
- Quarterly recipient spending and jobs reports to be submitted beginning October 2009 with data to be subsequently presented on Recovery.Nebraska.gov and federal Recovery.gov
